Health & Safety

With the HSE increasing numbers of visits due to accidents in our area it's a good time to take a moment to review and consider if you are compliant with Health & Safety in the work place.

Are you and your staff adequately trained to do the job safely?

We can offer courses including: Fork Lift, Pesticides, Working at Height, Manual Handling, ATV, Tractor Driving, Chainsaw, Abrasive Wheels, Brushcutter, Trimmers, Ride on Mowers, & Pedestrian Mowers.

Transport Of Live Animals - Short Journey (40+ Miles) (includes certificate of competence)

This course is designed for those who transport animals for short (over 40 miles and up to eight hours) road journeys. Training and multiple choice test paper take place on the same day. Once successfully completed, attendees attain a certificate of competence which lasts for life.

Date to be confirmed – if you are interested in this course please get in touch so we can get a group of people together to make it happen.
